PROFESSIONAL EXPERIENCE

Coder Foundry, Web Software Engineer

Kernersville, NC · January 2017–May 2017

- Created a personal portfolio and blog website using C#, MVC5 and JavaScript.
- Created a fully functional MVC bug tracker web application, from scratch, implementing enhanced security and file uploading features.
- Created a fully functional financial portal web application using .NET MVC framework. Composed dynamic front-end design using partial views and AJAX.
- Created a fully functioning mobile vehicle information application using Xamarin. Accessed NHTSA's car recalls database using WebAPI2. Included images using Bing's Cognitive Image Search API. Built RESTful APIs and utilized Azure App Services.

Adama Science and Technology University, Matlab Assistant (PT)

Adama, Ethiopia · September 2012–February 2014

- Assisted engineers in designing, building, fixing, and testing electrical circuits, flexible circuit boards, and light guides.
- Facilitated meetings with project teams to help drive decision making for application development.
- Produced and reviewed diagrams to assist and support the requirements gathering process.

Green Cab of Charlotte, Owner/Founder

Charlotte, NC · September 2014–Present

- Worked with a team to provide top class customer service and grew a loyal customer base.
- Identified and seized viable opportunities for expansion and grew company into a profitable and valued enterprise.
